

# we've LOST our WAY

In 2014, America's Research Group conducted a survey of the millennial generation currently attending church. Their responses to many of today's controversial issues are shocking.

## Of the church-attending millennials surveyed:

**50%** did not speak against gay marriage

**45%** did not speak against homosexuality being a sin

**35%** believe the Bible contains errors

Of those who believe the Bible contains errors, their #1 reason for believing so is the age of the earth.

When asked "which person convinced you most that the Bible was less true?" the #1 responses was "High School Teacher."

**40%** do NOT consider themselves "born again"

**30%** believe other holy books are inspired by God, i.e. the Quran

**65%** believe if you're a good person you'll go to heaven

**50%** were not taught to defend their faith in Sunday school.

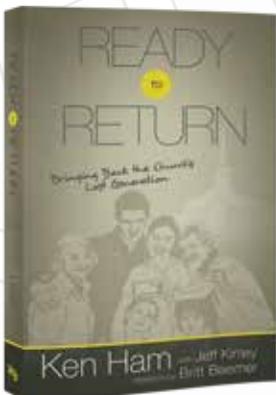

The Bible used to serve as a roadmap for life, now it is viewed as merely a book of suggestions where people are free to pick and choose what parts work best for them. If millennials never accepted the TRUTH of God's Word as inspired by God Himself and instead believe it is full of errors and controlling opinions, then what "roadmap" do they use to navigate life's greatest issues like sanctity of life, marriage, sexuality, and beyond.

*Ready to Return* gives definitive research on the state of Christianity in America to help people understand that the millennials are fundamentally going to change the church, and as a consequence of what the church has already done (or not done), the millennials will change the culture. Remember, it only takes one generation to change an entire culture.
